

SHINING 3D

FreeScan UE Pro2

Wireless Multi-Functional Laser Handheld 3D Scanner

Inspect on the move

FreeScan UE Pro2

Inspect on the move

Based on the capabilities of FreeScan UE series, FreeScan UE Pro2 features an innovative integrated WIRELESS module for more flexibility and mobility. With its ultra-fast scan speed, efficiency is doubled, empowering quicker project completion.

The patented innovative built-in photogrammetry technology enhances volumetric accuracy, making it perfect for scanning a wide range of parts from small to large.

Additionally, the integrated inspection module facilitates on-site quality control, streamlining your workflow effortlessly with all-in-one shopfloor solution.

Ideal for inspections and versatile applications, FreeScan UE Pro2 sets a new standard in portable 3D metrology world.

SHINING 3D

Wi-Fi 6

Wireless and Portable

Integrated with Wireless module, FreeScan UE Pro2 liberates you from cables, allowing seamless data transmission during scanning.

Perfect for on-site fieldwork, shopfloor and harsh working environment, this 950g scanner empowers you to capture accurate 3D data effortlessly, wherever your projects happen.

Scan speed up to
3,460,000
points/sec

Double the Speed, Double the Productivity

FreeScan UE Pro2 offers nearly double scanning efficiency compared to the previous generation.

With a rapid scan speed up to **3,460,000 points/s**, you can complete the scanning tasks smoothly, thus allowing you to focus on inspection applications to enhance your overall productivity.

Embedded Computing Module

Accelerates data capture and processing, reducing overall scanning time and computer workload, ensuring the wireless scanning mode to achieve same scanning frames as scanner connected with cable.

50 Laser Lines

Ensures faster and more comprehensive scanning.

High Frame Rate

Achieves up to 180fps for smooth and rapid data acquisition.

Notice: Compatible with all power banks.

Certified and Guaranteed Results

With the volumetric accuracy up to 0.02 mm + 0.015 mm/m using photogrammetry, FreeScan UE Pro2 delivers consistent and reliable global accuracy and scanning results.

SHINING 3D Accuracy Laboratory, accredited by CNAS in accordance with ISO 17025, ensures rigorous calibration of optical metrology. Based on VDI/VDE 2634 guidelines, the laboratory guarantees the traceability of measurement processes and calibration results. This certified metrology system is ISO compliant and can easily be integrated into your ISO quality control processes.

Elevated Accuracy for Large-Scale Scans

Patented Binocular Photogrammetry

FreeScan UE Pro2 features patented innovative built-in photogrammetry technology for scanning large objects, quickly optimizing the spatial position of global markers, ensuring consistent accuracy.

Different from traditional photogrammetry methods, our binocular photogrammetry technology eliminates the usage of coded targets, reducing preparation time by at least half while maintaining the same high level of volumetric accuracy.

Scale Bar

FreeScan Software: Intuitive and Powerful

Real-time Display of Mesh Data

Our streamlined software displays mesh data in real time as you scan your workpiece, enhancing visual quality and saving time on meshing later on.

Customized Scanning Template

Save time and ensure consistency by customizing scanning settings. No need to set parameters manually.

Data Quality Visualization

Users can determine if the scanning distance is appropriate by observing the rendering color of the laser lines projected onto the object in the 3D view of the software or by the LED indicator on the scanner.

There is also a real time mesh quality indicator to determine the quality of the collected data. So an operator knows which areas of the scan are sufficient or not.

Flexible Resolution

Be able to change the resolution later according to your need, without restarting the project.

3 Functions for Versatile Applications

High-speed scanning

50 Laser Lines

Detail scanning

7 Parallel Laser Lines

Deep hole scanning

1 Laser Line

Quick On-Site Inspection

Our integrated inspection module ensures rigorous quality control. Simplify operations and enhance fast quality check on-site for you.

SPECIFICATIONS

Product model	FreeScan UE Pro2		
Scan mode	Multiple lines scan	Fine scan	Single line scan
Light source	50 laser lines	7 parallel laser lines	1 laser line
Working distance	300 mm	200 mm	300 mm
Scan accuracy	0.02 mm		
Volumetric accuracy	0.02 + 0.03 mm/m (0.02 + 0.015 mm/m with photogrammetry)		
Scan speed	Up to 3,460,000 points/s		
Scan depth	360 mm		
Max. FOV	600 x 550 mm		
Point distance	0.01 ~ 10 mm		
Laser class	Class II (eye safe)		
Connection standard	USB 3.0		
Dimension	305.8 x 118.9 x 100.8 mm		
Weight	0.95 kg		
Power input	24V, 3.75A		
Working temperature	-20 ~ 40°C		
Working humidity	10% ~ 90%		
Certifications	CE, FCC, ROHS, WEEE, KC, FDA, UKCA, IP50, TELEC, TiSAX		
Accuracy Certification	VDI/VDE 2634 Part3 (certified in ISO 17025 certified accuracy lab)		

Recommended
computer configuration

OS: Windows 11 Professional 22H2 (64-bit)
 Processor: 13th Gen Intel® Core™ i7-13700H or above
 Graphics Card: NVIDIA GeForce RTX 4060 Laptop GPU or above
 Video Memory: 8G or above; RAM: 64G or above, DDR5 dual-channel; Interface USB 3.0

Notice: SHINING 3D reserves the right to modify or adjust the above specifications and pictures.

*Based on VDI/VDE 2634 part3. Sphere-spacing error is assessed with traceable length artefacts and markers by measuring these at different locations and orientations within the working volume, in the accuracy lab with environment conditions: temperature $20 \pm 0.5^\circ\text{C}$; humidity 40 ~ 60% RH.
